EL PASO HEARS GHOSTLY TALE OF MEXICAN CRIMES

American From Oaxaca Sees
Bodies of Countrymen
Swaying From Tree

VILLA PLEADS NOT GUILTY OF MURDERS

Rebel Envoy Eludes Carranza
Patrols With Message
To America

[Associated Press by Federal Wireless]
EL PASO, Texas, Jan. 23.—Eight swaying bodies decomposing upon the tree upon which they had been hanged by bandits, the eight dead being Americans, according to the information of Mexicans living nearby, was one of the sights seen by A. J. Trumbo, a Louisianan, who has just returned from the state of Oaxaca, which is so overrun by bandits as to be unsafe for any foreigner. Mr. Trumbo has made an affidavit covering what he knows of Oaxacan conditions, which document will be forwarded to the state department at Washington.

Oaxaca is lawless, with roving bands of pillagers and murderers, without regard to law of God or man, reports Mr. Trumbo, who says that the Carranza soldiers in the state are wholly powerless to cope with the situation. The eight dead bodies which he had been told were those of Americans executed by the bandits, were so decomposed as to be beyond identification.

Villista Envoy Brings Denial

In the meanwhile, Villa has sent a special messenger across the line to this place to announce to the Americans that he should not be held in any degree responsible for the murders at Cuat, which he condemns. This message was brought by one of Villa's officers, Major Federico Prieto, who crossed through the Carranza lines and over the border in disguise, to bring the message of his chief to the people of the United States.

Villa, says Major Prieto, has also commenced a search for the men responsible for the killing of the 18 Americans at Cuat, who acted without any justification and without orders. When these men are run down by the Villistas, they will be summarily executed, even if, when they are found, they should turn out to be Villistas themselves.

Major Prieto reports that Villa is in the vicinity of Pearson, Chihuahua, in no danger of capture.

Bandit Reported.

Word from New Orleans is that Maximino Casto, a Mexican bandit leader, has been reported by the federal authorities and has taken a boat for Havana. Casto is reported to be the murderer who forced a train into a tunnel, at full speed, after he had destroyed the tunnel in its center with dynamite. The train was wrecked and 21 Americans were among the passengers killed. The train burned up and the bodies were unrecognizable when recovered. This happened in February of 1914.

EL PASO, Texas, Jan. 24.—Two Mexican cattle thieves, believed to have been guilty of the murder of Bert Ackers, an American, were executed by Carranza soldiers near the international boundary line yesterday. The murder of Ackers, which was a peculiarly cold blooded one, took place last Friday, and the slayers were arrested Saturday afternoon by a detachment of troops belonging to the Carranza garrison at Jaurez.

28,000 EGGS CONSIGNED TO GARBAGE CAN

Large quantities of meat and fish, as well as nearly 2000 dozen eggs, were destroyed by Food Commissioner A. W. Hansen last week as being unfit for food.

The condemnation of the products of the hen was brought about by an inspection of cold storage plants in Honolulu and, in exact figures, Mr. Hansen made way with 28,794 eggs, which were either consigned to the garbage dump or otherwise destroyed. From 2 per cent to 75 per cent of the lots inspected were destroyed in some instances.

Six lots of eggs were examined, and the following table shows the percentage of condemnation:

Lot 1—57 eggs or 2 per cent.
Lot 2—5,400 eggs or 75 per cent.
Lot 3—739 eggs or 30 per cent.
Lot 4—4,578 eggs or 52.9 per cent.
Lot 5—9,020 eggs or 51.6 per cent.
Lot 6—9,000 eggs or 53 per cent.

A large number of the eggs destroyed were intended for use by the army, and, in their inspection, Mr. Hansen had the cooperation of the Quartermaster Corps, which is making every endeavor to prevent the use of products unfit for food. In addition to the eggs, 600 pounds of beef, pork and poultry and 370 pounds of fish were condemned.

CABLES URGING NEED OF HARBOR AT NAWILIWILI

Secretary of Honolulu Chamber
Sends Message Asking
for Money for Breakwater

Urging that an appropriation be put through for a breakwater at Nawiliwili harbor, Kauai, Raymond C. Brown, secretary of the committee on resolutions of the last civic convention, has cabled to Stephen N. Sparkman, chairman of the committee on rivers and harbors in the house of representatives.

Resolutions passed by the civic convention last September were forwarded to Washington several weeks ago by Mr. Brown, but the cable message was sent at the request of the Kauai Chamber of Commerce. A similar message was sent to Delegate J. K. Kalaiananalo.

Using as a special argument the troubles that have beset vessels on the Kauai coast during the recent storms, Mr. Brown pointed out in his message that a breakwater at Nawiliwili would have given a harbor for all vessels to put in, and thus have prevented damage.

Constitution Completed

"I have completed my draft of the constitution and by-laws for the civic convention," Mr. Brown said today, "and have so informed E. N. Deyo, Hilo, chairman of the committee." No more word has been received from the Hawaii delegate in regard to the Kilauea national park bill since he sent a request to the Chamber of Commerce some time ago asking that they procure for him the prices of certain private lands in the Kilauea district. Owing to an evident conflict that exists between the description of the lands by the delegate and that held by the chamber, a cable was sent to him in an attempt to get the two maps to agree.

Secretary Brown said today that the chamber will do all it can to carry out the delegate's request just as soon as the seeming conflict is settled. The chamber also plans to work hard for the passage of the vocational training bill now before Congress, and will also make an earnest effort to get the naval academy here.

THROUGH ATTENDS FUNERAL SERVICE OF J. F. ECKARDT

To pay their last tribute to a man who for 40 years was known and respected by all who came into contact with him, nearly 2500 persons attended the funeral services of the late Johannes F. Eckardt, former superintendent of the Queen's hospital, which were held in the Catholic cathedral, Fort street, yesterday afternoon.

The services, while short, were impressive. Bishop Libert, head of the Catholic clergy, officiated, assisted by several members of the local mission. The bishop sang the service, aided by the cathedral choir. Hundreds of friends of the late superintendent filled the big house of worship, many being obliged to remain outside because of lack of space within. Many beautiful floral offerings were in evidence, both from friends and from the various societies and organizations to which Mr. Eckardt belonged.

The remains were on view at Williams' undertaking establishment yesterday morning, and a large number of persons availed themselves of the opportunity to look for the last time upon the man who won a host of friends through the kindness and thoughtfulness displayed during his many years of service in Hawaii, his adopted home.

Big Escort to Cemetery

Interment was in the Catholic cemetery, King street, where a brief service was conducted by Rev. Father Valentini. The remains were escorted by 300 members of Court Camoes No. 8110, Ancient Order of Foresters; Hawaiian Tribe No. 1, Improved Order of Red Men, and Camoes Circle No. 249, Companions of the Forest, A. O. F. The pallbearers were George W. Smith, Robert W. Shingle, W. Lanz and Maj. George C. Potter, trustees, and W. Roehl, superintendent of the Queen's hospital; Vincent Fernandes, Jr., representing Court Camoes No. 8110, Ancient Order of Foresters; Judge William J. Robinson, representing Hawaiian Tribe No. 1, Improved Order of Red Men, and Col. Charles W. Ziegler, representing Mystic Lodge No. 2, Knights of Pythias.

ROOSEVELTS TO TAKE WEST INDIES VOYAGE

[Associated Press by Federal Wireless]
NEW YORK, N. Y., Jan. 24.—Reports from Oyster Bay last night confirmed the rumor that has been going the rounds for some time, that former President Roosevelt intends to take a long vacation soon. It was announced for the colonel that, with Mrs. Roosevelt, he will leave here in February for a trip to the Leeward and Windward islands of the West Indies group, and will pay a visit to the island of Guadeloupe while away.

Mailed Fist Must Back Up Policies of U. S.

Brig.-Gen. Macomb Tells Senate Committee a Few Reasons for Preparedness

DOUBTS WISDOM OF PAN-AMERICAN UNION

Militia Chief Favors Plan for Continental Army Proposed by Garrison

[Associated Press by Federal Wireless]
WASHINGTON, D. C., Jan. 23.—If the United States intends to uphold the world doctrines she has promulgated during the past hundred years, this country must make ready the force without which policies will be nothing. Such is the opinion of Brig.-Gen. M. M. Macomb, president of the Army War College, who appeared before the senate military committee yesterday as a witness.

The Monroe Doctrine, upon which the United States has invited the smaller republics of Central and South America to rely; the policy of the Open Door in the Orient, promulgated by Secretary of State Hay, upon which America relies for equal trade opportunities in China and Manchuria; the doctrine of the supremacy of the Pacific and the question of Asiatic exclusion from American possessions and the Pacific coast states, are each nothing unless behind them is a force able to uphold them when challenged, declared Gen. Macomb.

The Monroe Doctrine, he said, tended to make the creation of a Pan-American Entente necessary. "Such a thing may be a good thing, and then again, it might not," he remarked.

Favors Continental Plan.
Brig.-Gen. A. L. Mills, of the general staff and chief of the division of militia affairs in the war department, was another distinguished witness before the committee. Gen. Mills endorsed the plan of Secretary Garrison for the creation of a Continental army and deprecated the suggestion that such a force would only duplicate the National Guard, to the benefit of neither.

"It would be impossible to use the militia as the plan is to use the Continentals," he said.

MAYORS OF U. S. CITIES TO HOLD CONFERENCE ON PREPAREDNESS

[Associated Press by Federal Wireless]
NEW YORK, N. Y., Jan. 24.—Cornelius Vanderbilt, the multimillionaire, announced yesterday that a conference of the mayors of many of the larger American cities will be held in St. Louis March 3 and 4, to discuss ways and means of getting the nation into a state of real preparedness.

BRITISH FOUNDERS OFF CAPE RACE: ALL HANDS ARE SAVED

[Associated Press by Federal Wireless]
HALIFAX, Nova Scotia, Jan. 24.—With several hundred passengers and crew, the British steamer Pollentia foundered at sea off Cape Race yesterday. Despite the heavy seas running at the time, all hands were rescued and are being brought to this port.

TWO PASSENGERS YET MISSING IN SNOWSLIDE

[Associated Press by Federal Wireless]
SEATTLE, Wash., Jan. 24.—Two hundred diggers are working with pick and shovel in the heaped up snow that buries part of the Great Northern passenger train swept off the track by a snowslide in the Cascade range Saturday afternoon, in the hope of discovering additional bodies. So far the last reports indicate that they have been unsuccessful in their search.

It is believed that there are two more bodies under the snow drifts, and two passengers are still missing. The search will continue until the snow is cleared away completely, which should be by Thursday.

Reports from the hospital to which the 15 injured persons were rushed immediately after the accident, indicate that all of them will recover, as they are said to be improving rapidly.

CHURCH IS MADE CHIEF ENGINEER AT HAMAKUA

[Special Star-Bulletin Correspondence]
HILLO, Jan. 21.—R. B. Church, a well known engineer, has been appointed as chief engineer of the Hamakua Mill Company's mill at Paauhau. He succeeds J. S. K. Cushingham, who has been chief engineer for some time past.

Church has been for some months past employed at the Waiakae mill where he did a lot of work in connection with the changes that have been made in the big mill. Some years ago he was chief engineer at Puunene mill on Maui and later on at the Waialuku Sugar Company's mill on the same island. He is no stranger to the island of Hawaii, as he has been employed at different times at Honokaa, Paopao and Kauhale.

BOMB ARSENAL FOUND BY JAPANESE POLICE

[Associated Press by Federal Wireless]
TOKIO, Japan, Jan. 25.—Japanese police have discovered where the bombs were made with which four men attempted to assassinate Premier Okuma last week.

Brig.-gen. M. M. Macomb.

IN WAR ARENA

DESPERATE FIGHTING ON WESTERN FRONT.

PARIS, France, Jan. 24.—The French war office in its official communique, issued late last night, confirmed in part reports from Berlin that the Teutons had assaulted and captured a portion of the Gallie line between Arras and Lille. The fighting, which according to the Berlin despatches resulted in the thrusting back of a portion of the French line 250 yards long, took place north of the first named town, and was exceptionally fierce in its character.

French Retake Trenches.
The French statement says that the French troops by desperate counterattacks "have succeeded in regaining much of the ground lost north of Arras by a surprise attack" of the Germans. It is understood that the Teutons are rushing troops and munitions from the base at Lille to reinforce their troops near Arras, in order to hold the ground gained in yesterday's fighting.

Berlin also claims that the Teutonic artillery has been successful in its efforts to bombard French positions east of Arras.

The Paris statement says nothing about this attack by the heavy guns of the enemy, but states that the cannonade has succeeded in inflicting severe damage upon the Teuton organization on the lines between Soissons and Rheims, where their shells are said to have destroyed a large munitions depot that was being used by the Germans east of the cathedral city of Rheims.

Metz Bombed by Aviators.
On the extreme left of the French line, adds the communique, Gallie aviators succeeded in carrying out another aerial attack on the great Teutonic fortress of Metz. A fleet of 24 French aeroplanes sailed over the city and dropped 130 bombs on the railway station and the military barracks. Teutonic air craft guns responded to the assault, and succeeded in damaging one of the attacking planes.

BRITISH GET SETBACK IN MESOPOTAMIA

LONDON, Eng., Jan. 24.—Bad news from Mesopotamia reached here last night with the announcement that Gen. Aylmer's attempt to relieve the British "force surrounded by Turkish troops at Kut-el-Amara has failed, temporarily at least, and that the British relieving column had retired 1300 yards after heavy losses had been suffered and inflicted upon the Turks. The weather in which the fighting was done was "atrocious," says the official despatch.

This report comes on the heels of the announcement from Constantinople that 5000 Teuton troops and officers have reached that city. In London this news is taken to mean, not that the expected attack on Egypt is about to begin, but that the Germans are hurrying to the support of the authority of Enver Pasha.

Other reports from the Moslem capital received here within the last few days indicate that the Turks are growing restive, and that revolt has been but narrowly averted. It is asserted that 21 officers of the Turkish army, who were suspected of disaffection to the present government, have been dropped into the Bosphorus with stones tied to their necks.

SLAV TORPEDOES SINK TURK SUPPLY SHIPS

LONDON, Eng., Jan. 23.—Naval activities form the outstanding features of yesterday's reports from the various war zones. Petrograd reports that a Russian torpedo boat, in the Black Sea, sunk two Turkish ships, bound for the Caucasus with war supplies. The crews of the two ships were taken off before the ships were sunk and are being taken to Odessa as prisoners.

A Milan despatch states that a fleet of 16 heavy ships of the Allies bombarded Porto Lagos on Wednesday, inflicting heavy damages ashore, destroying docks and barracks.

Peace With Belgium Advocated?

Announcement that Germany is ready to conclude a separate peace treaty with Belgium comes in an Exchange Telegraph despatch from Amsterdam, which quotes the Frankfurter Zeitung as authority. The Zeitung, in discussing the question, says that the

National Security League Votes Indorsement of Plans For Nation's Defense

FAVORS INCREASE OF REGULAR ARMY

Wickersham Declares President
Should Have Wider
Powers in Crisis

[Associated Press by Federal Wireless]
WASHINGTON, D. C., Jan. 23.—The National Security League, in session here, yesterday adopted a resolution endorsing the plans of Secretary Garrison, on the basis that they lay the groundwork for the development of the idea that the policy of defense rests upon and ought to depend upon ultimately obligatory military service of all male citizens physically fit.

The league went on record as favoring a regular army larger than that provided for in the administration program and also urged that the naval building program be augmented. More Scope for President Advocated.
Among the speakers before the league yesterday was George W. Wickersham, Taft's attorney general, who said that he was an advocate of the repeal of the present law, which obligated the President, in the event of war, to call upon the state militia for service ahead of calling for volunteers. He believed that there should be no restrictions placed upon the Executive in time of a crisis.

ing the question of such a separate peace, suggests that if the Belgians are wise they will accept the terms offered by Germany because if they wait too long Germany will consider Belgium a good prize and annex it definitely as a German province.

Exchange of Interned Citizens.
An Overseas despatch from Berlin announces that the German and French governments have reached a satisfactory basis for the liberation of civilian prisoners, each government to set free the civilian citizens of the other held by it, provided such prisoners are not subject to military duty. This will affect all women, all boys under 17 and all men over 55 years. When liberated, these civilians will be allowed to leave for neutral countries.

AUSTRIA CLAIMS CAPTURE OF ADRIATIC PORTS

VIENNA, Austria, Jan. 24.—Reports from the Austro-Italian front are contradictory. Despatches from the fighting line declare that there have been no engagements for some days, while official statements given out by the war office here declare that the Austrians have occupied the Adriatic seaports of Antivari and Dulcigno.

FRANZ JOSEF REPORTED SERIOUSLY ILL

LONDON, Eng., Jan. 24.—It is officially reported in Budapest, says a semi-official despatch from that city, that Emperor Franz Josef is seriously ill with an attack of bronchitis, and that he has been bed-ridden since New Year's day.

TEUTON AIRMEN DROP BOMBS ON ENGLISH COAST

LONDON, England, Jan. 24.—Two fatal air raids by Teuton aviators were reported by the war office last night. Again the eastern coast of Kent suffered, and one man is dead and six persons are in the hospital with wounds received from the German bombs but the military and naval damage is nothing. Several small fires were caused by the incendiary bombs dropped by the aeroplanes, which is the extent of the harm effected by the enemy.

The first raid in which but one aeroplane was concerned, according to war office statements, began early yesterday afternoon. This aviator dropped nine bombs on some of the fishing hamlets that line the Kentish coast. His first bomb, and after trying in several other places he retreated seaward, unpursued.

Later in the afternoon another aeroplane appeared and dropped several bombs, but without accomplishing anything. Warning having been given, naval and military machines chased him off and he escaped.

TEUTONS DEFEATED IN KAMERUN CAMPAIGN

PARIS, France, Jan. 24.—Despatches from Madrid, reported last night that the German troops operating in the Kamerun have suffered another and even more severe defeat at the hands of their British foes. In retreating the Teutonic column was forced across the line into Spanish Guinea, where they have been interned until the end of the war by order of the Spanish government.

REPORTS CONFLICT ON EASTERN WARFARE

PETROGRAD, Russia, Jan. 24.—That the fighting in Galicia continues with its former intensity is indicated by reports from the Russian war office from Vienna.

The government announced last night that the Russian offensive has continued in the theaters south of Dubno and in Eastern Galicia. Austrian reports that the soldiers of the Czar had suffered a reverse on the Furth river line, where the Teutons are said to have blown up a trench with a mine, killing 300 of its defenders, is not confirmed here.

MONTENEGRINS RUN BLUFF ON AUSTRIA

ROME, Italy, Jan. 24.—From Brin-

TURKEY READY TO CONFESS SINKING OF LINER PERSIA?

So Says Berlin Advices, But
Despatches As Yet Lack
Confirmation

[Associated Press by Federal Wireless]
LONDON, England, Jan. 24.—Despatches to the Exchange Telegraph News Agency from Amsterdam last night reported that "according to Berlin advices, the Turkish ministry of marine is about to make a formal statement that a Turkish submarine sank the steamer Persia in the Mediterranean, and will assume responsibility for the act." This despatch has not as yet been confirmed from any other source.

YUNNAN "GOVERNOR" OUTLINES POLICIES TO FOREIGN LEGATIONS

[Associated Press by Federal Wireless]
PEKING, China, Jan. 24.—Tung Chi Yau, revolutionary governor of the province of Yunnan, or, as it is now styled itself, the Republic of Yunnan, and Jen Kao Tsang, civil governor, have written to the foreign legations in Peking concerning the "conduct of affairs" in Yunnan.

All foreigners will receive ample protection from the authorities of the little republic, the governors promise, and all treaties between China and other countries, except those entered into since the reversion to the monarchical form of government under Yuan Shih-Kai, will be carefully observed. Any agreements which the Yunnan government have entered into will be repudiated, and the powers are warned against making any treaties with the present government here.

A warning also is issued that all contraband destined for the use of the Yunnan government will be confiscated for the "use of the state," and the communication closed with a request that the powers remain neutral in the civil war against Yuan.

IN FIVE MINUTES NO SICK STOMACH, INDIGESTION, GAS

"Pape's Diapepsin" is the
Quickest and Surest Stomach
Relief

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can surely get relief in five minutes.

Ask your pharmacist to show you the formula, plainly printed on these fifty-cent cases of Pape's Diapepsin, then you will understand why dyspeptic troubles of all kinds must go, and why it relieves sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapepsin" is harmless; tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but what will please you most, if that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many "Pape's Diapepsin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gases, heartburn, sourness, dyspepsia, or any stomach misery. Get some now, this minute, and rid yourself of stomach misery and indigestion in five minutes.—adv.

POLITICS VOTED DOWN BY LABOR COUNCIL

[Associated Press by Federal Wireless]
SAN FRANCISCO, Cal., Jan. 24.—The Central Labor Council of San Francisco has gone on record as opposed to the organization of a political labor party in California. This proposal has been before that body for some time, and has occasioned considerable debate. The final action was taken Saturday night.

PRESIDENT HOME FROM YACHTING TRIP

WASHINGTON, D. C., Jan. 24.—President and Mrs. Wilson returned to this city last night after a trip down the Potomac which lasted two days. dis, Italy, by the Stfani News Agency, comes the announcement that the negotiations between Montenegro and Austria for a separate peace were but a bluff tried on the Dual Monarchy by the state department of Montenegro in order to give Nicholas and his army time in which to retreat in safety to Albanian soil. The news agency quotes M. Mouchkovitch, premier of Montenegro, as its authority for the story.

PACIFIC COASTERS SEND S. O. S. CALL FOR ASSISTANCE

Two Steamers In Distress From
Recent Gale; Steering
Gear Gone

[Associated Press by Federal Wireless]
SEATTLE, Wash., Jan. 24.—Fresh proof of the severity of the recent gales on the North Pacific coast came in last night with the report that the coastwise steamer Admiral Schley, trading between San Francisco and Tacoma, is in distress, with her steering gear gone, and the ship helpless under the pounding of the heavy seas. Wireless reports from the ship failed to give her exact position, but it is understood that she is off Coos Bay. She had asked for assistance and the Associated Oil tank steamer Frank H. Buck is reported to be standing by, ready to aid in case of need. The steamer Centralia, bound from Grays Harbor for San Francisco, which sent out distress signals night before last, is now reported to have lost her deck load and to have abandoned all idea of reaching the Golden Gate this trip. She is on her way to this port under her own steam. The Admiral Schley, the Frank H. Buck, and the Yosemite were reported Saturday night as standing by the Centralia, and it is believed here that the Schley suffered the accident to her steering gear while attempting to assist the Centralia.

PANAMA CANAL NOT YET READY FOR TRAFFIC

[Special Star-Bulletin Correspondence]
PANAMA, C. Z., Jan. 23.—Governor Goethals reports that the canal is not ready to be reopened and that there is no certainty when it will be ready again for regular business. He is unable at this time to set any date for a resumption of traffic. The dredgers are able, when they are not interrupted by shipping traversing the channel, to gain on the slides, but the gains are slow. Governor Goethals and General Edwards leave for Washington tomorrow.

The percentage of urban population in England and Wales has increased and that of rural dwellers decreased every time that a census has been taken in the last half century.
